

## TO FOSTER AMERICANISM.

When the American Legion holds its first national convention at Minneapolis on November 10, 11, and 12, a committee will be appointed to coordinate and intensify the work that is being carried on throughout the United States to teach English, civics, and fundamental American principles to candidates for citizenship. This section is in accordance with the Legion's policy to foster and perpetuate a 100 per cent Americanism.

## Little Friends of the Liver

The liver is the regulator of health. If the liver is active and well, good health and happiness prevail; but once you allow your liver to get sluggish and sluggish, life becomes a misery.

**CARTER'S LITTLE LIVER PILLS**  
Small Pills—Small Dose—Small Price  
DR. CARTER'S LITTLE LIVER PILLS, Nature's great nerve and blood tonic for women, men, children, nervousness, constipation and female weakness. Keeps you in good health.

## IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if kidneys feel like lead or bladder bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally. Also we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, tired liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless, inexpensive, makes a delicious, effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean and thus avoid serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Cold By Taking Calotabs, the Nameless Calomel Tablets, That Are Delightful, Safe, and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed, and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no doctor.

Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.

**PLOCURA**  
CURES PILES  
The Only Internal Remedy  
50c and \$1.00 the Box  
Sold by ALL DRUGGISTS  
Or sent by mail on receipt of price  
Plocura Co., Wash., D. C.

## BEST LAXATIVE FOR THE SUMMER

Indoor Workers Lacking Outdoor Exercise Should Take This Advice.

Instead of waiting until night and taking a "Blasting" dose to keep you next day read what an authority says: "People lacking exercise and troubled with sluggish bowels and bilious attacks should take a dose of P-Z Tablets at intervals. This work more thoroughly, much more satisfactorily and quicker. An P-Z Tablet may be taken any time during day and relief comes almost instantly. Another a little later and perhaps still another before retiring puts the system in splendid condition without violent or drastic upsetting action." Note: P-Z Tablets come 100 Tablets in a wooden bottle, 25c. Pure or pocket size, 10c at People's Drug stores and all good drug stores.

## FOREIGNERS SWAMP STEAMSHIP OFFICES

Thousands Seek to Leave the United States for Native Lands.

NEW YORK, Oct. 1.—A stream of emigrants from America that will number hundreds of thousands will flow back to European countries as soon as transportation facilities will permit, according to consular officials in New York, who report that their offices are swamped with applicants for passage back to the old countries. Authorities familiar with the situation predict important effects from the wave of emigration, which reverses the usual trend of traffic. Hitherto there has always been a huge flow of immigrants from the European lands to America. Several reasons are suggested as responsible for the turning of the emigration tide between Europe and America. Jointly they are considered sufficient to cause a wave of immigration to Europe.

The general tie-up in trans-Atlantic traffic during the five years of war is one of the causes for the concentration of desire of Europeans to return home now, think authorities. Many men who came here to work have not been able to visit their families during the war.

Applications filed with consulates show that the majority of these emigrants do not intend to return to America with their families, but feel that they will have better opportunities in the old countries. High wages during the war, and especially during America's participation in it, have enabled most of the foreigners to return home with savings sufficient to make them quite independent on the old scale of living. It is predicted, however, that few of them realize the cost of living in Europe, where scales have risen more than in America, and that these returning "capitalists" will be disappointed. This will be especially true of Italy, it is believed, where it has long been the custom to go to America a few years and return a well-to-do citizen.

The greatest permanent rush of peoples will be to the small nations freed from yokes of Austria and Germany by the allied victory. It is thought, judging from indications at consulates of Poland, Czechoslovakia, Serbia and Rumania. There is also a strong movement under way toward countries formerly under the Russian Czar's rule, especially Finland and Lithuania. According to emigrants of the Russian Soviet government in New York more than half a million Russians throughout the country want to return to Russia.

It is impossible to estimate the strength of the movement to Germany and Austria, there being no consular representatives of these countries in America.

Economists see in the emigration movement serious problems for America, which may lose almost a million workmen in the course of two or three years. It is said this will cause a scarcity of the so-called cheap labor for unskilled work and keep wages high.

At the same time Europe will gradually get more labor, which will tend to reduce wages on that continent, and probably reduce prices, though the emigrants will be scattered through such a large population that they will not affect European countries as much as their absence will be felt in the United States.

Sociologists see in the movement a purifying of the American nationality, which has been strengthened and welded together by the war. Removal of that part of the population which has no desire of being assimilated would be a good thing, they think, in spite of the shortage of labor it might create.

## WEST VIRGINIA GOVERNOR OPPOSED TO PLUMB PLAN

CHARLESTON, W. Va., Oct. 1.—Governor Cornwell has come out in a statement saying he was opposed to the Plumb plan of railroad control. "It is little short of amazing to me that men possessing the intelligence of the trainmen should be gulled into asking such an unreasonable and outrageous demand," said the governor. "If the people bought the railroads and gave them to the men to run for themselves telephone and telegraph employees would demand the same thing of those properties. Then the coal miners would demand that the mines be purchased and given to them. Then the farm laborers, with a better right, would say, 'We produce the food you all live on, so buy the farms and give them to us.'"

## WANTED TO DIE, BUT COLD WATER CHANGES HIS MIND

ST. LOUIS, Mo., Oct. 1.—Patrick Patton wanted to die. He jumped into the Mississippi river. The water was cold; it took Patton's breath and his desire to end his life, so when John Spies and Charles Pabst held out long poles to him he grasped them and was pulled ashore. Patton gave his address as Decatur, Ill. Don't let careless expenditure make a slave of your purse. Buy wisely, and increase your money holdings by investing in W. & S.

## Thursday Bargain News---Lansburgh &amp; Bro.

The weekly offering of seasonable merchandise at below the regular price has made this day a busy day for us as well as for our customers who look each Thursday for an opportunity to save on their purchases.

## Editorial

No request has come for North Dakota, but it's interesting, so read on.  
—Area 70,837.  
—General elevation from 800 to 2,800 feet above sea level.  
—Eastern part mostly rolling prairie, western part more broken.  
—Between the Mouse and Red Rivers is a basin with no outlet to the sea forming Devil's lake—very salty.  
—The S. W. slopes offer good grazing for cattle; known as the "bad lands."  
—Minerals of all kinds are absent except lignitic coal and clay. The former is now made into briquettes.  
—Air is dry, invigorating, and very healthful. Gets very cold in winter—as low as 40 degrees below zero.  
—Wheat is main agricultural product.  
—Stock and wool raising are also important assets.  
—Very few manufacturing plants.  
—Territory of Dakota organized in 1861.  
—Population only 577,056.  
—Do you know the capital?
